

MVP Roadmap

Playbook-IQ · Misk Launchpad Cohort 10 · Assignment #2

28 Sep – 30 Oct 2026

Stage: Prototype · 5 one-week sprints
Founder + Data Operations Specialist

The goal: one pilot that produces our first evidence on willingness to pay. One match analysed gives two team reports, so **three matches yield five reports across four clubs**.

Al-Ittifaq U21 is the anchor (top of the table). The other three clubs are approached with a finished report already in hand.
